

## Boron-Zinc-Molybdenum Liquid Fertilizer

### Description:

**BZM POWER** is a boron-zinc-molybdenum liquid fertilizer, enhances seed germination, root development, and nutrient uptake. It promotes strong seedlings, protects flowers and fruits, boosts resistance to stress and disease, improves water retention, and increases yield and quality. The formula is scientifically balanced to meet crop nutritional needs, accelerating flower bud formation and improving fruit set.

### Formulation:

120 (B) - 10(Zn) - 5(Mo)

\*or formulated by client request

### Typical Data:

Item	Percentage
Boron (B)	$\geq 120$ g/L
Zinc (Zn)	$\geq 10$ g/L
Molybdenum (Mo)	$\geq 5$ g/L
Density	1.32-1.36 g/mL
Water Insolubles	$\leq 10$ g/L

### Why Choose BZM POWER ?

- Triple effect and scientifically balanced Boron (B), Zinc (Zn), Molybdenum (Mo) to activate growth potential.
- Enhances seed germination, root development, and nutrient uptake for vigorous seedlings.
- Optimizes flowering & fruiting: Boosts flower differentiation, fruit setting rate, and single-fruit weight.

### Target Applications:

Foliar Spray Application	Dilution Ratio: 1,200-1,500 times	Frequency: Every 8-15 days
--------------------------	-----------------------------------	----------------------------

### Customized Packaging:

Package Type	Package Capacity	MOQ
200 ML Bottle	40 Bottles/Carton	400 Bottles
500 ML Bottle	20 Bottles/Carton	300 Bottles
1L Bottle	12 Bottles/Carton	200 Bottles
5L	4 Jerry Cans/Carton	100 Jerry Cans
10L	2 Jerry Cans/Carton	100 Jerry Cans
20L / 250L / 1000 L		Discussed

### Storage:

Store in the original container in a cool, dry place away from direct sunlight, excessive moisture, and heat. Keep container tightly closed after each use.
